Re: Project Neon - Design-Build Project
Owner: Nevada Department of Transportation (“NDOT”)

Subject: Request for Bidders - Referral Assistance
Notice of Interest to Receive a Bid Package
1) Demolition of Existing Box Culvert
2) Form and Pour NDOT-Type Inlet Tops
3) Painting (Walls, Bridges, Concrete)

Response Due Date: Monday, November 28, 2016

Kiewit Infrastructure West Co. (“Kiewit”) is the design-builder for Project Neon and is seeking sub-quotes from Disadvantaged Business Enterprises (“DBEs”) and all other business enterprises whenever bid opportunities are available on this project. Kiewit is requesting your assistance in recruiting DBEs and we ask that you distribute this letter to your membership for their possible participation on this project.

Project Neon is a capital improvement, *Design-Build* project for NDOT located in the City of Las Vegas. The project is a 3.7-mile long widening of Interstate 15 (“I-15”) between Sahara Ave. north and the I-15/US Route 95/Interstate 515 interchange and includes work such as a high occupancy vehicle system, Charleston interchange reconstruction, Grand Central Industrial connector, and local street connections and ancillary improvements.

Design on Project Neon began in November 2015 and is followed by construction in three planned phases with an overall project completion anticipated for 3rd Quarter 2019. Phase I construction started in June 2016. The work required under this Design-Build contract will be performed by Kiewit, Atkins North America, Inc. (Atkins) its lead engineering firm and other firms yet to be identified. Bid opportunities for subcontractors, material contractors, professional services and material and equipment suppliers will occur throughout the life of the project. Requests for Quotes (“RFQs”) will be ongoing as needed. At present, Project Neon is approximately 16% complete.

Currently, there exists three separate bid opportunities for firms to provide a sub-quote – one to perform demolition of existing box culvert; one to form and pour NDOT-Type inlet tops; and, one to perform painting of walls, bridges and concrete.

If any of your membership firms are interested in providing a sub-quote for either of these three separate bid opportunities, please have them complete the “Notice of Interest” on Page 3 and return it to us no later than 4:00pm PST, Monday, November 28, 2016. Responding firms will then be issued an “Invitation to Bid” through Kiewit’s online bid system, *SmartBidNet* with bid instructions and access to plans, specifications, and requirements for the project.

Request for Assistance
Three Separate Bid Opportunities
November 14, 2016
Page 2 of 3

Responsive bidders must possess a valid State of Nevada Contractor's license (as appropriate) and provide acceptable insurance to meet contract requirements. Successful bidders will be required to provide 100% bonding for its contract. Kiewit will reimburse all bond premiums. If applicable, firms performing any on-site work must be signatory to the appropriate union labor agreements that govern its onsite work.

NDOT has established a DBE participation goal of 3.5% for Project Neon and Kiewit is committed to achieving the DBE goal by promoting and encouraging maximum practical opportunity for participation by DBEs throughout this project. Kiewit encourages its lower-tier firms to include DBEs whenever possible in performing its scope of work and to strive to achieve 3.5% DBE participation in its overall scope value. All DBEs must be certified by NDOT Unified Certification Program ("UCP") and a copy of the DBE certification must be provided with all sub-quotes.

Kiewit intends to conduct itself in good faith with all DBEs and all other business enterprises regarding participation on this project.

For information or questions regarding the project, project schedule, requirements of the contract, licensing, bonding, insurance or the use of *SmartBidNet*, all firms are welcome to contact Rebecca Manning at (702) 963-8601 or by e-mail at ProjectNeon-DBE@Kiewit.com.

Sincerely,

KIEWIT INFRASTRUCTURE WEST CO.

Rebecca A. Manning
DBE Program Coordinator
